Artificial Intelligence in Healthcare
Certification

Digital Health Certification

Basic Life Support

Advanced Cardiac Life Support

NIH Stroke Scale

EXECUTIVE EXPERTISE

- Artificial Intelligence Strategy
- Clinical & Healthcare Analytics
- Digital Transformation
- Operational Resilience
- Business Resiliency

PROFESSIONAL SUMMARY

Healthcare innovation and clinical analytics leader with 15+ years of experience spanning direct patient care, national clinical registries, quality and patient safety, executive advisory services, digital health research, business continuity planning, business resiliency, and operational resilience. Recognized for connecting clinical expertise, emerging technology, and data strategy to translate complex qualitative and quantitative information into clear executive intelligence.

Leads responsible AI strategy and education initiatives within Wakefield Brunswick, including AI-assisted workflow design, secure knowledge management concepts, and the development of databases and portals supporting business continuity planning, business resiliency, and operational resilience. Published researcher with expertise in digital health, qualitative methodology, clinical data management, and national patient safety analytics.

PROFESSIONAL EXPERIENCE

Senior Clinical Advisor

2026–Present

Wakefield Brunswick

- Lead enterprise business impact analyses, business resiliency assessments, and continuity planning initiatives across complex hospital and clinical service lines, identifying critical workflows, technology dependencies, downtime capabilities, and recovery priorities, recovery strategies, and continuity requirements.
- Lead enterprise emerging artificial intelligence strategy by identifying practical, responsible applications for healthcare consulting, knowledge management, executive reporting, business continuity and resiliency planning.
- Lead internal AI education focused on responsible adoption, data privacy, security, prompt design, validation, governance, and appropriate use of AI with sensitive healthcare information.
- Develop AI-assisted methods that augment qualitative synthesis, structured data interpretation, operational assessment, documentation, and executive decision support.
- Lead development of secure databases and portals intended to centralize business continuity plans, operational dependencies, recovery strategies, resiliency intelligence, and organizational knowledge.
- Facilitate executive and multidisciplinary stakeholder sessions for a premier academic health system, translating operational findings into resilience strategies, risk-mitigation priorities, and cost-avoidance opportunities.

Clinical Data Manager

2021–2025

Anesthesia Quality Institute, American Society of Anesthesiologists

- Led national qualitative patient safety registries, including the Anesthesia Incident Reporting System and ASA Closed Claims Database.
- Directed registry operations, governance, taxonomy development, data quality, multidisciplinary review workflows, and national dissemination of safety insights.
- Collaborated with physician leaders, researchers, and informatics teams to convert complex clinical narratives into actionable education, research, and risk-reduction strategies.
- Advanced AI- and NLP-enabled approaches for improving narrative data capture, thematic analysis, automation, and signal detection.
- Supported national committees and protected Safe Table discussions focused on emerging patient safety risks and improvement priorities.

- Business Continuity Planning
- Business Impact Analysis
- Recovery Strategy & Planning
- Healthcare Quality & Safety
- Clinical Informatics
- Executive Decision Support
- Responsible AI Governance
- Qualitative & Quantitative Research

TECHNOLOGY

SQL · Power BI · Tableau · Excel · Epic · NVivo · Qualtrics · Microsoft 365 · NLP-assisted analysis · AI-enabled workflows

HONORS

- Sigma Theta Tau International
- ANA Internship Program Fellow
- DNP Graduate with Honors

Clinical Quality Specialist / Clinical Registry Analyst

2019–2021

SwedishAmerican Hospital / UW Health

- Managed Society of Thoracic Surgeons and Vascular Quality Initiative registries, ensuring abstraction accuracy, data integrity, and regulatory compliance.
- Partnered with physician leaders and executive stakeholders to translate registry analytics into measurable quality-improvement initiatives supporting clinical excellence, regulatory compliance, mortality reduction, and organizational performance.
- Helped initiate a multidisciplinary sepsis improvement campaign by connecting SEP-1 performance with mortality-review findings and hospital Value-Based Purchasing measures, demonstrating the clinical and financial impact of timely sepsis care and elevating system-wide cost-avoidance opportunities.
- Supported mortality review, OPPE processes, medical staff governance, executive reporting, and enterprise quality committees.

Director of Health Services

Presence Health – Morning Star Village

2016–2018

Provided executive leadership for nursing and physical therapy services, regulatory compliance, quality improvement, staffing models, and operational performance.

Registered Nurse – Intensive Care Unit

Saint Anthony Medical Center

2011–2016

Delivered high-acuity critical care across neurological, trauma, orthopedic, and burn populations while building a foundation in patient safety and interdisciplinary decision-making.

ARTIFICIAL INTELLIGENCE & DIGITAL TRANSFORMATION LEADERSHIP

Strategy & Governance

Responsible AI strategy, governance, privacy, validation, ethical adoption, and organizational readiness.

Analytics Augmentation

AI-assisted qualitative synthesis and quantitative interpretation to strengthen insight generation and executive decision support.

Education & Adoption

Development and facilitation of practical AI education for healthcare and consulting teams.

Database & Portal Innovation

Concept development for secure business continuity databases, business resiliency knowledge platforms, and operational resilience portals.

Demonstrations of AI application and augmentation are featured at www.DeannaLatinoPortfolio.com.

PUBLICATIONS & SCHOLARLY CONTRIBUTIONS

Peer-Reviewed Digital Health Research

Latino, D. (2026). First-author publication in *SAGE Digital Health* examining the experiences of Medicaid patients with diabetes and hypertension participating in a digital health program. The longitudinal qualitative research explored behavioral changes, access to care, symptoms and health, health-related quality of life, and patient knowledge.

DOI: 10.1177/20552076261450465 · PubMed PMID: 40747639

Updated Findings From the Anesthesia Closed Claims Project

Domino, K. B., Lin, D. M., Burden, A., et al. (2025). *International Anesthesiology Clinics*.

Acknowledged as **Deanna Latino, AQI Registry Manager** for data expertise and registry management contributions supporting national anesthesia patient safety research.

NATIONAL LEADERSHIP & SERVICE

- AIRS Committee
- Closed Malpractice Claims Database Committee
- Clinical Outcomes Committee
- Occupational Health Committee
- Multicultural Employee Resource Group Leader
- Vascular Birthmarks Foundation Ambassador

SELECTED STRENGTHS

- Executive communication and facilitation
- Healthcare quality and reimbursement frameworks
- Clinical data management and governance
- Research design and thematic analysis
- Risk mitigation and cost avoidance
- Cross-functional physician and leadership partnerships
